PROFILE INTRODUCTION

I am a passionate and dedicated app developer with a strong foundation in programming languages such as C++, C#, Java, Python, and Kotlin. While I have experience in web development with Django and full-stack projects, my primary focus is mobile app development. I have built applications in Kotlin and recently transitioned to Flutter, where I feel most productive in creating intuitive and efficient mobile experiences. My continuous learning mindset, problem-solving skills, and hands-on experience with both native and cross-platform development make me a valuable asset for high-level companies seeking innovation and expertise.

Education

BS (COMPUTER SCIENCE), UNIVERSITY ISLAMABAD, COMSATS SAHIWAL CAMPUS JANUARY2022 - FEBRUARY2026

EMPLOYMENT HISTORY

REMOTE JOB -TIPBOX [TIPPING APP]

AUG-2024- OCTOBER24

Developed and delivered a high-performing mobile application tailored to client requirements, ensuring a **seamless user experience**. Collaborated remotely with an employer to implement key features, optimize performance, and maintain code quality.

- Optimized app performance by **refining code efficiency** and implementing best practices in Android development.
- Utilized **Git for version control**, enabling seamless collaboration and code tracking within the development team.
- Mentored junior developers, **fostering a collaborative environment** and enhancing team expertise.
- Implemented state management (**MobX**) for structured and efficient app data handling.

PROJECTS

TripMates- A Travel App

December 2024 – Present

Developed a feature-rich travel app catering to both travel agents and travelers. The app includes user authentication, profile management, image uploading, travel package listings, and a community messaging system. Built with Flutter using **GetX** for state management and MVVM architecture, it integrates Firebase Firestore for real-time data storage and Cloudinary for media uploads, ensuring a seamless user experience.

Home Nest –Furniture Marketplace

October 2024 –November 2024

Designed and implemented a furniture e-commerce app with real-time database management, user authentication, and a smooth browsing experience. Utilized **Firebase Realtime Database** and **Provider** for efficient state management.

Weather App

August 2024 – August 2024

Developed a weather forecasting app using a live weather API, providing real-time updates. The app is fully deployed and accessible at

<https://weatherapp-cb0bf.web.app/>

SKILLS AND CORE COMPETENCIES

- ✓ Flutter
- ✓ Firebase
- ✓ Git Proficiency
- ✓ Problem solving
- ✓ Excellent communication
- ✓ Leadership and Team Work
